OBJECTIVE

Computer Science and Engineering undergraduate seeking a Software Developer role to apply programming and problem-solving skills. Eager to contribute to innovative projects while continuously learning and growing professionally.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science and Engineering	Expected 2027
Malla Reddy College of Engineering	CGPA: 7.8/10

Intermediate (Class XII)	2023
Loyola Academy Junior College	GPA: 9.2/10

SKILLS

Languages	Java, C, Python
Web Technologies	HTML5, CSS3, JavaScript
Databases	MySQL
Tools	Git, GitHub, VS Code, Google Colab
Soft Skills	Problem Solving, Teamwork, Communication

EXPERIENCE

Software Developer Intern (Front-End Development)	Apr 2025
Micro IT India	

- Developed front-end web applications using HTML, CSS, and JavaScript.
- Contributed to the development and maintenance of web applications during the internship.

PROJECTS

Multi-Stream Feature Fusion Traffic Prediction. Developed a machine learning-based traffic prediction system using multi-stream feature fusion techniques. Performed data preprocessing, feature extraction, and model evaluation to improve prediction accuracy. [\[GitHub\]](#)

Vehicle Emission Detection and Alert System. Built a machine learning-based emission monitoring system using Random Forest, KNN, Linear Regression, and XGBoost algorithms. Predicted vehicle emission levels and generated alerts to support environmental monitoring and pollution control.

CERTIFICATIONS

- Artificial Intelligence Fundamentals – IBM SkillsBuild
- AI for Students: Build Your Own Generative AI Model – NxtWave
- Python Fundamentals – Infosys
- Career Edge - Young Professional – TCS iON

EXTRA-CURRICULAR ACTIVITIES

- Participated in Hack-N-Win 24-Hour Hackathon conducted by Malla Reddy College of Engineering.
- Participated in Blind Coding Competition and various technical events organized by the college.
